## About Us

Mason Brook Nursery was opened in April 2005 by Maureen Vaillancourt and Michael Ordway to provide plants and landscape products. We strive to offer the finest quality plants at competitive prices. We will order special items, if not currently in our field.

Through working with area towns and organizations we hope to become not just a plant retailer but an integral part of our community.

We enjoy sharing our plant knowledge with you and are delighted when individuals of all ages show an interest in gardening. Stop by to see our farm, shop, browse and share your interest.
